Ministry of Environment Forests & Climate Change

Zoological Survey of India

Prani Vigyan Bhawan

M- Block New Alipore

Kolkata- 700053

Description of Work

The position involves studies on taxonomy, population dynamics, life-table studies, SEM morphology, morphometrics, phylogeny, role of climate change and behavioral studies on *Aedes aegypti* and *Aedes albopictus* mosquito vectors from Jodhpur, Delhi and Kolkata areas. The project involves long term field surveillance of mosquitoes in the study locations and laboratory studies. For more details, see Table below

Position	Study areas	Proposed objectives	Deliverables
01	Jodhpur, Delhi and Kolkata	Surveillance of mosquitoes, population dynamics, degree day and lifetable studies, SEM and molecular studies	Mosquito diversity, seasonal population density, biological attributes of ecologically varied populations in morphology, morphometrics, life-table and molecular genetics
